## a day on the Travel

There are many inflatable boats, pedal boats or canoes but no private islands...

Bluewater, great weather – but the beach is packed! A few meters from the shore, in the middle of the bay, a raft sails around and attracts everyone's attention: The Travel by Stadler Design!

It does not matter if you are an adventurous camper, short vacationer or water lover because Travel has enough space for four people. On the deck, you can enjoy the sun, relax or go on a big adventure trip – and you don't even need a boat license for that. Everyone can be the captain!

The Travel can be taken anywhere as it comes in one handy pannier. The pannier can fit in every mobile home or caravan but can also easily be stowed in the trunk of a car. Thanks to step-by-step instructions and the individual parts can the Travel be on the water within 15 minutes. Holidaymakers can escape from crowded beaches, explore new bays or sunbathe in the middle of the water.
